Newgen Specialty Plastics Ltd
Solution Through Innovation

and more...

As **FTI SOFTWARE SOLUTIONS PVT. LTD.**, we provide a wide range of consulting and technical support plans to fit the different needs of large corporations, educational institutes, independent developers and small businesses at competitive rates. As a value-based, caring corporate, we inherently believe in the trusteeship concept of management.

We offer you the expert technology consulting. Our talented consultants will provide you the solutions using object oriented analysis and design, database development and sound software engineering principles. We offer consulting and project management in all aspects of technology. By using our consulting services for your information technology requirements, you free up internal resources, lower your operating costs, and raise your operating efficiency.

Our highly qualified manpower consultants provide manpower engineering and technical consultancy services to various corporates. We offer our manpower services through a unique combination of skills, competencies, knowledge and favorable experience.

In view of rapidly changing Information Technology(IT) industry, we offer our services to our clients in the following areas:

- * **Custom Software Development** - Custom Software Development with expertise in database desktop and distributed application design, and web projects.
- * **IT Consulting** - Our IT Consultants are experts in managing and supporting IT Operations – for both small and large organization.
- * **Offshore Dedicated Center** - There are significant cost efficiencies and time advantages That favor the need and success of our offshore development center.
- * **Business Process Outsourcing(BPO)** - FTI is uniquely positioned to service customer requirements by leveraging its tenets of quality and innovation, the best people talent, self sustaining process framework and domain knowledge.
- * **Corporate & Educational Training** - The role of our corporate training solutions is to ensure the fine tuning of the core competencies and skill set of your employees.

Work smarter, not harder - with FTI. We offer different memberships to meet the needs of IT professionals, managers and executives in organizations of any size. FTI continually evolve services to deliver greater value for our business. Our service teams include industry experts and thought-leaders who work relentlessly to design the right solutions to help you stay ahead of the curve.

Our Commitment to Clients

- * **Speed Of Deployment**
- * **Standards Of Excellence**
- * **Cost Effective Solutions**
- * **Timely Project Deliveries**

Testimonials:

"We have been working with FTI for a few years now and I have to say they will bend over backwards to meet our business and technical requirements and stay on time and within budget. A rare quality for a software development company..."
